

WE LOVE TITANIUM AND  
BELIEVE THAT IT WILL  
CHANGE THE WORLD

is a titanium feedstock producer and the only privately owned company that has built its mining and processing complex from scratch in Ukraine

**OUR MISSION** is to create a New Era of Titanium, where humanity benefits from a technologically advanced and environmentally safe base material

**TI METAL** is an innovative project to build fully vertically integrated manufacturing complexes producing final titanium products based on Velta Ti Process, revolutionary green technology

## OUR INNOVATIVE PROJECT

- Own revolutionary technology with **far fewer carbon emissions**
- The zero waste concept of **green titanium**
- 3 domestic and 2 US patents for **Velta Ti Process™**
- Investment in research & development amounts to **\$4 million**

## OUR MINING BACKGROUND

- Birzulivske deposit is successfully operating during **10 years**  
Likarivske deposit is **preparing for launch**
- Unique high-grade **titanium feedstock**  
**2%** of the global titanium feedstock market
- 100%** of our feedstock is exported worldwide:  
our key customers are Chemours (DuPont), Precheza, and Traxys
- 1,205,000 tons** are extracted, enriched, and delivered  
**UAH 520 million** in taxes had been paid as of 2022

**TITANIUM MARKET  
GAME CHANGER**
